

# Getting your kids ready for the school seasonal holidays

Go through your diary or calendar and start ahead of time to make bookings of places you want to take your kids to visit.

Set a budget for the holidays and for your kids, if they want merchandise from an experience or attraction.

Take a separate pair of clothes and see what facilities are available if you are going on a break somewhere if you do forget something.

Do a list of what to take and delegate carrying duties for your kids to carry their own bags and belongings.

Take some cash as well as bank cards and keep the cash away from your cards so if you do lose something you have back up so you're not stranded and can't get home. Check if places have lost property departments and if they have parking available.
